

Logging in to Audubon Works

I. Are you Audubon staff?

Yes: Go to Section IV

No: Go to next question

II. Do you have an Audubon account to log in to the Chapter Reporting System, CBC Compiler site, or IBA Reviewer site?

Yes: Go to Section III

No: Follow these instructions:

1. Go to <http://works.audubon.org> and click the green “register” button.
2. The current registration code is **worksAvocet** (this code will change periodically).

Maybe/I don't know: Try the instructions above; if you get an error message, please write to works@audubon.org

III. If you have an Audubon account to log in to the Chapter Reporting System, CBC Compiler site, or IBA Reviewer site, follow these instructions:

1. (if necessary) If you need to reset your password, do so here first:
<http://netapp.audubon.org/AAP/Request/ORG>
2. Go to <http://works.audubon.org> (do not click the green “register” button)
3. Log in using your email address and Audubon password

IV. Audubon staff should log in using their Audubon.org email address and **network** password—that’s the password used to log on to your computer or to VPN, if that’s different (not your email/Perch password).

Having trouble? Please email works@audubon.org for assistance. We are working to improve the login experience; a new, simpler system will be available shortly.

Once you’ve logged on, please add a photo of yourself (square photos work best) and brief bio to help us foster a more personal community.
